TODAY & TOMORROW

MAY 5-18, 1984

ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

(Newsbriefs continued)

SFGH will observe the Mexican holiday Cinco de Mayo with a rare public display of paintings by two of that country's most famous artists, Diego Rivera and his wife, Frido Kahlo.

Rivera's "La Tortillera," painted in 1926, and Kahlo's 1931 "Portrait of Dr. Leo Eloesser," both of which were given to UCSF for display at SFGH, were dedicated on Friday, May 4, in ceremonies in the hospital lobby.

The paintings were donated to UCSF with the stipulation that they be hung at the City/County Hospital where their original owner, the late thoracic surgeon, Leo Eloesser, MD, served for 36 years—the hospital, he wrote, "whose patients, doctors, students, nurses and help, from the kitchen to the roof, had become so indivisible a part of me." Arrangements are being considered to exhibit them on a permanent basis, according to hospital administrator Geoffrey Lang.

Cinco de Mayo, which is celebrated annually in San Francisco's Mission district, marks Mexico's victory over French invaders in a fierce battle on May 5, 1862.

MOVES

Outdoors Unlimited, located at 24 Kirkham Street, is scheduled to move to new quarters on the street level of the old UC Hospital Building sometime between May and June. The telephone extension 2078 will remain the same.

Faculty Group Dental Practice has moved to new facilities in Room 4000, the School of Dentistry Building. The practice has specialists in endodontics, periodontics and prosthodontics, in addition to general practitioners. The telephone extension 3028 remains the same.

(SFGH continued)

FRIDAY 11

MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H40. 7 a.m.

TUESDAY 15

ORTHOPAEDIC SURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

PEDIATRIC GRAND ROUNDS: *Failure to Thrive—Psychosocial Aspects.* Martin Glasser, Ped. & Psychr. & Alicia Lieberman, Psychr. Carr Aud. 8:30-10 a.m.

MEDICINE GRAND ROUNDS: *Herpes Virus.* M. Colin Jordan, Med., UCD. Carr Aud. 11:30 a.m.

THURSDAY 17

NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCE. Rm. 4H40. 8:30 a.m.

FRIDAY 18

MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H40. 7 a.m.

DEADLINE

Deadline for the next issue of *Today & Tomorrow,* covering the time period May 19-June 1, will be **Tuesday, May 8, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x1541 or x2557.

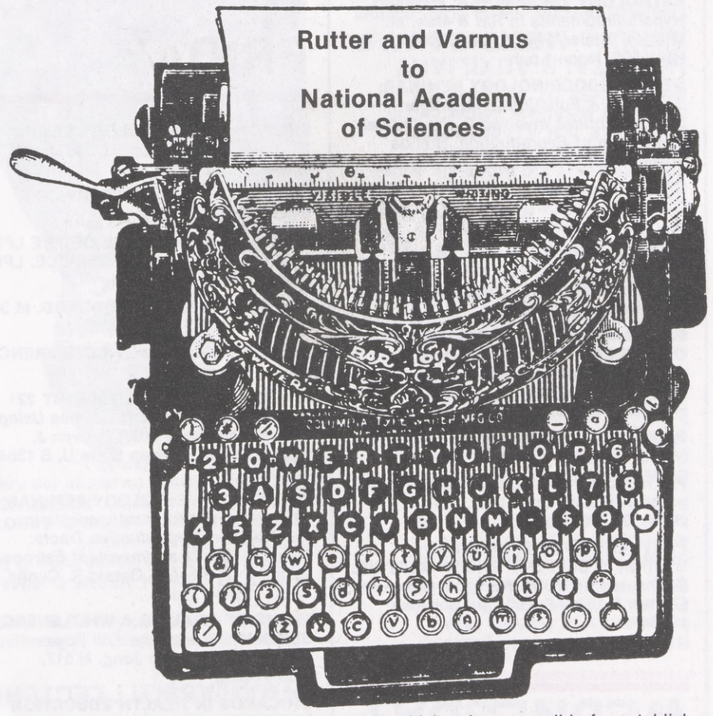
Call x5731.

Internal Derangement of the Temporomandibular Joint. Fairmont Hotel, SF. June 15 & 16.

Fourth Annual Roentgen Revisited. Germany. July 21-Aug. 5.



Three prominent citizens will be given the highest honor of the campus—the UCSF Medal—in recognition of their contributions to health education, community health care, and public service. Recipients are Francis J. Curry, MD, Ernest Gallo, and John J. Sampson, MD. The awards will be presented on Wednesday, May 9, at a banquet at the Stanford Court Hotel in San Francisco.

• A UCSF clinical professor of medicine, family and community medicine, and dentistry, Curry joined the faculty in 1976 after retiring from his post as director of San Francisco's Department of Public Health, a position he assumed in 1970 after serving 10 years as assistant director. Curry, with Father Alfred Boeddeker, is responsible for establishing St. Anthony's Dining Room and Clinic, which feeds and medically treats thousands of poor and hungry people of the Tenderloin district every month.

• Gallo is chair and director of the Ernest and Julio Gallo Winery in Modesto. A long-time supporter of UCSF, in 1982 Gallo gave $3 million to establish the Ernest Gallo Clinic and Research Center at SFGH to study the effects of alcohol on the human brain and nervous system. The clinic is affiliated with the UCSF Department of Neurology.

• Sampson has been a member of the

(continued inside)

Pioneering molecular biologist William J. Rutter, PhD, and virologist Harold E. Varmus, MD, have been elected to the National Academy of Sciences, bringing up to 11 the number of members of UCSF's faculty who are members of the Academy.

The Academy is a private organization that advises the Federal Government on science and technology, and election to it is one of the highest honors that can be awarded an American scientist or engineer. Besides the two UCSF faculty members elected to the Academy this year, six other scientists from the UC system also were elected—one from Berkeley, one from Davis, three from San Diego, and one from Santa Barbara.

• Rutter is Hertzstein Professor of Biochemistry and director of UCSF's Hormone Research Institute. He is well known in the area of recombinant DNA technology, having achieved the first major triumph of genetic engineering in 1977 when he and UCSF colleagues successfully isolated the gene for the hormone insulin from rats, and transplanted the gene to bacteria.

More recently Rutter and his group have turned to the problem of the regulation of expression of the genes in specific differentiated cells.

• A UCSF professor of microbiology and an American Cancer Society Research Professor of Molecular Virology, Varmus is a leader in the study of cancer-causing genes called "oncogenes."

He is best known for his work with UCSF colleague J. Michael Bishop, MD, showing that oncogenes can be found in animals, ranging from fish to humans, as normal components of the chromosomes. These findings came out of work on a class of viruses known to cause cancer in animals.

For the past few years Varmus also has been investigating the genetics of hepatitis B virus (HBV), using a virus related to HBV, but which infects ground squirrels.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

PRIMARY CARE GRAND ROUNDS: *Infectious Mononucleosis.* Maxine A. Papadakis, Med., VAMC. A 455. 4:30 p.m.

RADIATION ONCOLOGY GRAND ROUNDS: *Hyperthermia at UCSF—Progress & Future.* Paul R. Stauffer, Rad. Onc. L 75. 5 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5-6:30 p.m.

COLE HALL CINEMA: *The Big Chill.* Children under 14 $1.25; UCSF students, MU members & employees with ID $1.75; general $2.25. Cole Hall. 5:45 p.m.*

18 FRIDAY

PEDIATRICS CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

COORDINATED CRANIOFACIAL PANEL. Center for Craniofacial Anomalies, Schl. Dent. Toland Hall. 9 a.m.-noon.

CLINICAL CONFERENCE OF THE LPPI CHILD & ADOLESCENT SERVICE. LPPI Aud. 10-11:30 a.m.

CONSULTATIVE TUMOR BOARD. M 372. 10:45 a.m.

PHARMACEUTICAL CHEMISTRY 221 SEMINAR: *Molecular Environment Effects in Redox Chemistry: Electrochemistry of Basket-Handle Porphyrins.* Doris Lexa, U Paris. S 1364. 11 a.m.

CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

REPRODUCTIVE BIOLOGY SEMINAR: *Regulation of Growth & Patterning of Mouse Mammary Gland.* Charles W. Daniel, Bio., UCSC. M 1486. Noon.

PATHS OF HEALING & WHOLENESS SEMINAR: *Practical Living & Loving Through a Course in Miracles.* Jo-Anne Hahn, SF Miracles Fndt. N 517. Noon-1 p.m.

PATHOLOGY 296 SEMINAR: *Gilbert's Syndrome: Is It Really an Entity?* Rudi Schmid, dean, Schl. Med. HSW 508. Noon-1 p.m.

COLE HALL CINEMA: *The Big Chill.* Children under 14 $1.25; UCSF students & MU members $1.75; general $2.25. Cole Hall. 6:30 & 8:30 p.m.*

SELF-DEFENSE CLASSES

To register call x5683.

Review Class. For those who completed the 24-hr. class. Tues., May 8-June 5. 7-9 p.m. $25.

NEWS BRIEFS

(UCSF Medal continued)

UCSF clinical faculty since 1924. Chief of the UCSF cardiac clinics from 1947 to 1974, he is former president of the American Heart Association, the California Heart Association, and the Inter-American Congress of Cardiology. Among his many honors are this year's UCSF Charlotte Baer Memorial Clinical Faculty Award, the AHA Gold Heart Award, membership in the Gold-Headed Cane Society, and an honorary LLD from UCSF in 1967. Visiting professorships have been established in his honor both on this campus and at Mount Zion Hospital, where he was chief of staff for three years.

San Francisco's elderly and severely disabled received more than $1 million of badly needed mental health care from a three-year project managed by UCSF.

Using new Medicare funds, the project provided psychiatric help to 312 elderly and disabled on the city's west side. The services were expanded at the same time that city and state budget cuts forced most other area mental health services to reduce care and staffs.

The city also agreed to renovate the Sunset Day Treatment Center—which services some 280 patients a month—as a result of the need for care that was demonstrated by the project.

The new funds came from a Medicare Mental Health Demonstration Project set up in San Francisco's District Five Community Mental Health Center. One of 42 facilities selected by the U.S. Department of Health and Human Services from 4,000 clinics across the country, the center serves the Richmond, Sunset, Ocean View, and Ingleside districts.

Director of the project was Clifford Attkisson, PhD, UCSF associate professor of psychology and associate dean of the Graduate Division. UCSF employees who worked on the project included Carol L. Borden, Medicare project manager; Marie P. Caffey, data processing coordinator; and Giselle Hansen, Medicare project accountant.

The Chancellor's Summer Youth Program, which provides jobs to low-income, disadvantaged San Francisco high school students, will take place from June 26 to August 17.

Coordinated by the Personnel Department, the program employs students for 20 hours per week at $3.35 per hour, and is fully funded by the federal government.

If you are a campus supervisor and have not received detailed information on the program, contact Robert Rojas at x5357.

Plant flowers, picnic in Saunders Court, and hear free entertainment by our own UCSF Marching Band, in celebration of Chauncey Leake Day on Tuesday, May 22.

The day will begin at 11:30 a.m. with the dedication of a marble bust of Hygeia in the minipark between Langley Porter Psychiatric Institute and Long Hospital. Several teams of staff, faculty, and students will participate in a stretcher relay race at noon, beginning on the steps of the Medical Sciences building, followed by a $1 picnic lunch, a bake sale, race winner presentations, and a bedding plant sale, all in Saunders Court. Anyone wishing to participate in the stretcher relay race should call Katie Menees at x4421.

In addition, a drawing will be held to decide which lucky UCSF representative will carry the Olympic Torch prior to this year's summer games. UCSF is sponsoring one kilometer of the 19,000-kilometer run, which begins in New York and ends in Los Angeles. Tickets for the drawing are $1 each and are available at the Millberry Union Central Desk, the Visitors Information Center in the Medical Sciences lobby, Stan Mandell in Room 361 CED, and John O'Connor, Building 80, Ward 83, Room 301, SFGH. Proceeds from UCSF's part of the run will benefit amateur athletic training at the San Francisco Boys' Club branch at Page and Stanyan. For further information contact Katie Menees at x4421.

Chauncey Leake Day honors the well-known scientist and founder of the UCSF Department of Pharmacology, who died in 1978. He was often seen on campus planting a flower or stooping to pick up discarded scraps of paper. He made significant contributions to the field of pharmacology and was known as a public speaker, writer, and poet.

An anonymous donor has offered $100,000 to the fund-raising campaign of the UCSF Child Care/Study Center, provided that $200,000 can be raised from other sources by June 30. The campaign goal is to raise $300,000 to eliminate the center's long-standing debt. To date, some $174,000 has been raised by friends of the center, but more than $25,000 is needed by June 30 to qualify for the $100,000 contribution. Contact Meryl Glass at x1616 or the Development Office at x5685, if you are interested in making a donation.

The School of Medicine has received a $360,000 award from the Lucille P. Markey Charitable Trust of Miami for predoctoral education in the basic medical sciences. The money, to be used over a five-year period, will support outstanding predoctoral candidates in the departments of Microbiology/Immunology and Biochemistry/Biophysics.

As part of National Hospital Week, May 7 to 11, the Department of Nursing Service is sponsoring a "Spend a Day with a Nurse" program. Hospitals and Clinics administrative and support staff are invited to team up with a nurse for a few hours to learn about the role of a nurse in action. For further information call x2252.

In addition, the second annual "Nurses' Day Fun Run," in honor of Nurse Recognition Day, will be held on Saturday, May 12, at 10 a.m. in Golden Gate Park. The 5-kilometer run, which will start and end at the Bowling Green, is open to all Hospitals and Clinics employees and nurses. Register in the Nursing Office, M 185. Fee is $3.50 for Department of Nursing employees; $5 for others.

The Endocrine Clinic at the Ambulatory Care Center is seeking women volunteers under the age of 75 who want to participate in a three-year study on osteoporosis—excessive bone loss.

Approximately 80 post-menopausal women, all with a history of one to four vertebral fractures, are needed for the study. Oral medications will be given daily and routine visits on an outpatient basis are required. Individuals with intestinal disease or current hormone (estrogen) treatment may not volunteer. For further information call x2746.

A free symposium for minority nurses traditionally underrepresented in higher education in nursing will be held on Saturday, May 19, beginning at 8:30 a.m. in Room N 721.

The symposium, sponsored by UCSF Health Sciences Special Services Program and the School of Nursing, is designed for those interested in applying to a graduate program in nursing. Members of the school and community leaders will discuss "Leadership in Nursing" and "Health Care Needs of an Ethnically and Culturally Diverse Community." The program also will include workshops and information on the graduate program curriculum, admissions, and financial aid.

Nurses interested in attending may call Carol Stadum at x4373 or Frances Henderson at x3876.

The Department of Materiel Management has the following telephone extension changes: Storage/Surplus from 5222 to 1271, Equipment Management from 4292 and 1500 to 5042, Reprographics from 2781 and 1201 to 5042, Systems Analyst from 5067 to 5761, and Storehouse/Warehouse from 2095 to 1271.

A symposium on the medical effects of ionizing radiation will be held in the Millberry Union combined lounges on Saturday, May 5.

Geared to health professionals, the symposium will include several talks on the basic principles of ionizing radiation, an overview of the known medical effects of radiation, current issues in environmental radioactivity, psychological effects on a radiation-exposed person, and how to examine a person exposed to radiation.

Speakers will be: Bruce Lulu, UCSF assistant professor, radiation oncology; Gary Shrago, UCSF assistant clinical professor, radiology; Dennis Shusterman, medical director of the Sonoma County Indian Health Project; and Susan Lambert and Henry Vyner, of the Radiation Research Institute in Berkeley.

The symposium is sponsored by the UCSF Alliance for Nuclear Responsibility and the Friends of the Hibakusha. Fee is $20 general; $10 students. To register contact Jacqui Richter, MD, at 285-2483 or Susan Lambert, MD, at 848-8056.

The UCSF Puppet Therapy Program has openings for volunteers who enjoy working with children.

Volunteers in the program are trained as puppeteers who put on informal shows designed to relieve pediatric patients' fears of hospital procedures and treatment. Puppeteers use hand puppets and miniature hospital equipment in their shows, and meet with each child on a one-to-one basis.

Volunteers must be at least 18 years old, and previous experience with children or in the health field is desirable. After an orientation and training program, volunteers are committed to two-and-one-half hours a week for at least one year.

Co-directors of the program are Pat Stich and Elaine Pico.

Last year more than 500 children participated in UCSF's Puppet Therapy Program, which was first organized in 1969 and now is part of Child Life Services.

All those interested in volunteering should call x2538.

IT'S AN ERROR

The April 21 issue of *Today & Tomorrow* listed two recent incidents during remodeling of laboratories in the Health Sciences Towers, in which fireproofing containing a small percentage of asbestos was accidentally dislodged from above the false ceiling. The areas involved were not the laboratories on the fourth floor of HSE, as reported, but the site on that floor where construction is taking place.

HONORS & AWARDS

G. Richard O'Connor, director, Proctor Foundation; professor, ophthalmology: Winner of the Cordes Society Ophthalmology Faculty Service Award.

Robert B. Jaffe, professor & chair, ob/gyn & reproductive sciences: Appointed the E. Stewart Taylor Lecturer, Colorado Obstetrical & Gynecological Society in June. Will also lecture at two university hospitals in Denver and at the University of Colorado Health Sciences Center.

Charles Epstein: professor, pediatrics, biochemistry & biophysics; **Lois B. Epstein,** professor, pediatrics & research associate, CRI: Two of five members of the 25-year reunion class of Harvard Medical School to present their research at a scientific symposium during Harvard's reunion week.

Michael S.B. Edwards, associate professor, neurosurgery & pediatrics: Elected to fellowship in the American Academy of Pediatrics.

Corinne N. Nydegger, adjunct professor, medical anthropology & psychiatry: Served as a guest editor of a special issue of the journal *Research On Aging* (December 1983), devoted to anthropological approaches to aging research in modern societies.

Carol S. Viele, clinical nurse specialist, nursing education & research & oncology: Winner of the Jeanne Yalon Nurse Award, given in honor of the former nurse in oncology.

Sister Callista Roy, Robert Wood Johnson clinical nurse scholar: Winner of an award at the Sixth National Conference on Nursing Diagnosis for her work with the conference's nurse theorist group.

Christine Wilson, assistant research nutritionist, epidemiology & international health: Appointed to the Executive Committee of the Committee on Women in Asian Studies, Association for Asian Studies.

VISITORS

Puis Ochefu, chief consultant surgeon and chief medical officer, Ministry of Health, Benue State, Nigeria. He visited the Department of Epidemiology and International Health in late April as an Eisenhower Exchange Fellow, and conferred with Nicholas L. Petrakis and Piero Mustacchi on problems of hypertension in Africa.

Edward A. Smuckler, professor & chair, pathology; research associate, CRI: Elected to the Council of the US/Canadian Division of the International Academy of Pathology.

Mardi J. Horowitz, professor, psychiatry; director, Center for Study of Neuroses: Invited to give the Distinguished Psychiatrist's address to the annual meeting of the American Psychiatric Association on May 10 in Los Angeles.

Selna Kaplan, professor, pediatrics: Elected president, Lawson Wilkins Pediatric Endocrine Society; appointed chair of the National Institute of Child Health & Human Development Task Force for "Five-Year Plan for Research on Growth & Development"; appointed chair of the sub-board of Pediatric Endocrinology, American Board of Pediatrics.

John F. Flaherty, postdoctoral fellow, School of Pharmacy: Awarded an $18,000 fellowship from Merck Company Foundation to study the action of antibiotics in people with severe kidney disease. Flaherty is working under the preceptorship of John G. Gambertoglio, adjunct associate professor, and Steven L. Barriere, associate clinical professor, both pharmacy.

Levon K. Garron, clinical professor emeritus, ophthalmology: Winner of the Cordes Society Distinguished Service Award.

Crowell Beard, George S. Campion and **Robert N. Shaffer,** all clinical professors emeriti, ophthalmology: Winners of the Cordes Society Clinical Faculty Service Awards.

Ellsworth K. Kelly, '34, and **Albert Wasserman,** '43, School of Dentistry graduates: Winners of the school's Alumni Association's Medal of Honor, the highest award the association can present to a member.

IN MEMORIAM

Robert Frates, '19 School of Dentistry graduate. A past president of the San Francisco Dental Society, he served 22 years on the board of directors of the California Dental Association and five years as chair of the association's executive committee. He also was the original treasurer of the California Dental Service, a post which he held for 10 years.
